MCKINNEY

Mr. John Montgomery, who has been quite sick, is improving.

Mr. Grace Wilcher is able to be out again after several days' serious illness.

We hope the "hicker" nuts will not be killed by the cold weather we are having.

Mr. (D. V. Kennedy and wife are guests of his sister, Mrs. Lizzie Myers, for a few days.

Mr. J. H. Walker has returned home from a few days' visit with relatives at Danville.

Mr. Tom R. Meadows, one of our progressive farmers, who has been quite ill, is out again.

Dr. C. H. Creech, of Middleburg, left a bouncing ten-pound son to reside with Mr. and Mrs. Louie Davison on April 29th.

His many friends are glad to see Dr. J. C. Kelly out again after several days' illness. The doctor was greatly missed by his numerous patients.

There is less bootlegging than this vicinity at present than has been known for years. We consider this due to the team work of our fathers.

A certain party in our town has been caught on two different occasions in a very embarrassing position, one in the Geneva section and again in the Green River Ford section. The grand jury will no doubt be called on to investigate and decide on the case.

Leslie J. Haugh has passed the examination at Louisville, and is now a full fledged soldier in Uncle Sam's State Guards. He will probably be located for the present guarding railroad bridges. Mr. Haugh volunteered his services to his country which is a very commendable act.

The oil well question is topic here and indications are that drilling will soon be in operation. The Daniel Boone Oil Co., has consigned to them a steam drill outfit placed here on a car ready for unloading. We understand the first well will be drilled about two miles south of this place on Green river.

Wallace Hughes, little son of Mr. and Mrs. W. H. Hughes, is progressing excellently after his miserable suffering with a broken limb. The little fellow was compelled to have his limb re-broken on account of the ugly shape it was left in. Dr. Chidress, of Hustonville, was summoned to take charge of the re-breaking.

Our city fathers met last Thursday night. There was nothing of importance, brought before the meeting with the exception of the tax question. Practically every one has said. There is no use trying to dodge this as it only causes extra work for the tax collector. Mr. Z. F. Smith, our city marshal and tax collector, is the right man in the right place and is experiencing very little trouble in collecting from the people who are worth while. Of course there are always a few Jons who try to dodge the law, but such fellow's hat or coat caught off their bodies is not exempt.

HIGHLAND

Notwithstanding the cool weather which we have had for some days our farmers still continue planting corn etc.

While playing with a pistol yesterday, David, the ten-year-old son of L. S. Warfield, was shot in the thigh. Dr. C. M. Thompson, of King's Mountain, was called and dressed the wound.

Mr. Will Jenkins and wife and babies, of near Harrodsburg, spent several days with the parents of Mrs. Jenkins.

Mrs. Smith Faulkner and son, Ross, have returned from a visit to her relatives at Ludlow.

T. D. Williams, who works in Cincinnati, was at home for a few days with his family last week.

Goebel Jones, of Piqua, O., spent several days with his friends here.

Mr. and Mrs. E. G. Baugh, of Danville, were here Sunday to attend services at the Methodist church. Mr. Baugh will stay over this week and cover his barn.

DIRECT TAXES OF \$33 EACH

The war tax bill, extending its extension to the fabric of every American home, formally was presented to the House Wednesday by the Ways and Means committee, with plans for quick passage.

As a foretaste of what may come later, it proposes special taxes to raise \$1,800,000,000, in addition to the present normal annual revenue of \$1,000,000,000. When its terms are effective, the American people will be paying direct taxes of \$33 for each person. The people of the British Isles—half as many—pay taxes of \$60 for each person.

While the principal features of the new war levy are the increases in income and profits taxes, increases in internal revenue rates, and increases of customs duties, many of its provisions reach the innermost structure of every home and make up a list of taxes, probably the most formidable ever faced by the American people.

The household light, heat and telephone bills, admission tickets of amusements, fire and light insurance, railway tickets, automobiles, automobile tires and tubes, soft drinks, postage rates, golf clubs and base ball bats, club dues and a host of other every-day necessities or luxuries, come under the taxation.

Increased postage rates on newspapers, arranged in a zone system, such that publishers say will force many newspapers out of business. Protests against many features of the law are pouring in, and attacks on it will center in the Senate Finance committee, which will conduct public hearings on it and probably make some amendments.

There is some objection to hurrying the bill, and it probably will not be passed until the early part of next week.

Making Money!

Some men make their money in business—some in stocks—some by toilsome saving of their daily wage. But we submit to you the fact that more men have reached a comfortable competence thru the ownership of property—houses and land which bring in a fixed income—than in any other way.

Business requires your sole attention—stocks means sleepless nights and days of worry—property works by itself for you without your care.

Select it—set it to work—it takes care of itself and will take care of you.

DID YOU KNOW

That statistics show that the population of the United States is doubling about once in every twenty-eight years—and the EARTH is not stretching one bit. People have got to have homes. It is a settled fact that farming lands will never be cheaper and just as sure to go higher as you exist today. Did you know that any way you figure it the renter has always got the hot end of it? Furnish all the teams and everything else, do all the work and for what—at best only one half and often less than this. Did you know that you could easily pay the 6 per cent. interest and get all the crop instead of the one-half that you are now getting and then make more than 100% than you are now making. These are absolute facts.

Don't listen to a professional knocker who is always telling you something that he doesn't know. Use your own common sense and own your home.

TO AILING WOMEN

A Little Sound Advice Will Help Many A Sufferer In Stanford

No woman should consider herself healthy and well if the kidneys are weak. Poisons that are passed off when the kidneys are well are retained in the body when the kidneys are disordered. If the kidneys and bladder become inflamed and swollen worse troubles may quickly follow. This is often the cause of bearing-down pains, lameness, headache, etc. Uric poisoning is also frequent cause of headaches, dizzy spells, languor, nervousness and rheumatic pains.

When suffering so, try Doan's Kidney Pills, a remedy that has proven effective in thousands of such cases. Let a Stanford woman tell of her experience.

Mrs. E. J. Cooley, Whitley Ave., Stanford, says: "My kidneys were out of order and I felt run down and tired out. I had dull pains in my back and across my loins. The action of my kidneys was irregular. I read of Doan's Kidney Pills and bought some at the New Stanford Drug Co. This medicine soon put my kidneys in good order and relieved other symptoms of kidney trouble."

You Need Not Suffer From Catarrh

You have probably been in the habit of using external treatments to relieve your catarrh. You have applied sprays, washes and lotions to the mucous surfaces of the nose and throat, have been temporarily relieved, and then wondered a short time after, why you were troubled with another attack of catarrh.

You should realize that catarrh is an infection of the blood. This fact has been agreed upon by specialists in catarrh troubles, and has been proven in the laboratories of the Swift

If we should have a favorable season for potatoes there will likely be a bumper crop raised this year. The crop is being increased at least ten-fold in this section and this is said to be the rule all over the country. We hear of a few farmers who will try their hands at raising navy beans also, which will doubtless be a paying crop if the price at which they are selling holds good.

Farmers don't you think right now is the best time to raise draft horses? The price was never higher than now, and our supply of work horses is at the lowest point it has been for years.

There are not more than half as many brood mares in the county now as there were five years ago. You can see that we are facing a horse famine. What are you going to do about it? Autos and auto-trucks are all right but you can't farm with them. You can't raise colts from your mules. It looks like the most sensible and business-like thing to do is to raise some good draft colts before your old brood mares are gone.

I offer for public service the champion draft stallion, Voltaire. He has proven himself to be one of the best breeders this county has ever known.

He will make the season at my place on the Danville pike, one mile from Stanford at \$15 to insure a living colt; season due when colt is foaled or mare parted with. Will not be responsible for accidents.

I am going to offer the services of this great horse at the extremely low price of \$15 to insure. I am giving you for \$15 what most men would charge from \$25 to \$40 for.

Do you appreciate it? If so send your best mares to the court of Kentucky Gentleman and let him get you a nice colt.

Mississippi

Farm Lands For Sale

Good Quality—Terms Easy

A trip through different sections of the State of Mississippi and an observation of agricultural conditions there has convinced me that it is the place at the present time to secure the best land values at the lowest prices—from \$5 to \$50 per acre, some of them near a city, with six trunk line railroads, and as large as Lexington, Kentucky, where lands are selling at \$300 per acre—by those seeking homes or investments in good farming lands.

Believing that it would be of mutual advantage and profit to those seeking homes or investments in farming lands, at lower prices than are possible in this section of Kentucky, where land values have advanced beyond the reach of the farmer of moderate means, I have associated myself with several responsible gentlemen in the state of Mississippi and am in position to offer some very attractive propositions to those seeking investments of this character, on easy terms, aided by the "Federal Farm Loan Act."

These lands, due to the short winter season, and long grazing periods are especially adapted to stock raising and diversified farming; are well located as to churches, schools, shipping points and markets; are situated on improved highways and are well watered, either by streams or artesian wells.

Almost every character and kind of crop that can be raised in Kentucky can be raised profitably in Mississippi.

Cheap railroad rates for home-seekers can be obtained by those desiring to look the situation over. I shall be pleased to give further information to any one who is sufficiently interested, that will call to see me or write to me at Stanford. HARVEY HELM.

U. S. WHEAT SUPPLY

Recent estimates place the visible supply of wheat in North America at approximately 110,000,000 bushels; 150,000,000 bushels in the United States.

It also is estimated that there will be 430,000,000 bushels of winter wheat in the United States upon 40,000,000 acres planted. Estimates of spring wheat now being planted will be made on June 1.

All figures in the light of averages for the past years, indicate Canada and the United States should be able to produce more than 900,000,000 bushels of spring and winter wheat this year, upon a combined area of about 60,000,000 acres.

Spring wheat averages for the last few years make about 250,000,000 bushels for the United States, and 220,000,000 bushels for Canada the normal production.

Normally about 10,000,000 acres of wheat are planted in Canada each year. In the United States 19,000,000 acres of spring planted wheat, according to averages for recent years, is about normal, while the total acreage normally for both spring and winter wheat is about 52,000,000 acres.

500 INVENTIONS TRIED OUT

"It looks as though the submarine problem has been solved," said Mr. Saunders of the Naval Consulting Board, "not only in theory, but on the strength of practical tests on the Atlantic coast."

Mr. Saunders added that 500 inventions for U-boat suppression had been submitted for consideration of the board, and the experiments with many of them justified, he believed, the assertion that a plan had been found by which the submarine peril could be eliminated.

Mr. Saunders was unwilling to go into further details of the board's experiments, all data on the subject having been forwarded to Washington, but he said the public had a right to be informed of the progress made toward nullifying the depredations of the German undersea craft.

Orders have been received by the Seventh Internal Revenue district to reduce the surplus number of storekeepers and gaugers to 15 per cent.

THE PLAN FOR DRAFTING

Plans for the registering of men called to the colors under the Selective Draft Bill are being considered. The Governor will appoint a board in each county, which in turn will select three men in each voting precinct to conduct the registration. Louisville, Lexington, Covington and Newport will appoint their own.

This will occupy five days. Every man within the age limit fixed by the statute and call of the President must register. The exemptions will be made by the War Department afterward.

These probably will include those with dependent families and those engaged in certain skilled and productive occupations. From those selected the number required will be called and examined.

It is estimated that considerably more than a quarter of a million Kentuckians will be registered during the five days. Badges of war veterans already have been shown, indicating that provost duty will be thorough in rounding up any who may undertake to escape the notice of the officers.

Judge W. R. Shackelford, of the Richmond circuit court, recently requested the mayor of Richmond to procure for him a list of the unemployed able bodied men, white and black, within the corporate limits of that city. The judge stated that he desired to call attention of his next grand jury to idleness and as a means of getting the attention of the jurors specifically called to the matter, wanted the exact number who are violating the vagrancy act. This is a capital move on the part of Judge Shackelford and it is sincerely hoped every circuit judge in the State will follow the lead of the Madison jurist. That an idle mind is the devil's work shop, there can be no doubt, and when a loafer is convicted of vagrancy, it is a hundred to one shot that a violator of some other law is punished at the same time. Attention is called to local conditions. We are informed by a responsible official that loafers are very numerous in this section, and if they can be convicted, and put to work, a good deed will be done for the community in general.

In Fayette county there is building a tuberculosis hospital to cost over a hundred thousand dollars and it is hoped to be able to open for service July 1. The county subscribed twenty-five thousand dollars, but the larger amount is being raised by subscription and much of the money necessary is still unprovided. A campaign to raise the needed amount is being waged and people all over the section that the institution will serve are asked to subscribe. As provision will be made for taking care of the soldiers encamped there, the whole State should feel interested and help in the worthy undertaking.

James W. Hopper, for years an editorial writer on the Courier-Journal and previous to that editor of the Lebanon Enterprise, is dead in Louisville at an advanced age. He had been in feeble health for many years and his death did not come as a surprise. In the Courier-Journal editorial rooms Mr. Hopper was known as the "winking encyclopedist" such a store of useful information he possessed. He was highly educated and spoke several foreign languages fluently. A finer old gentleman never lived and the son and daughter who survive him have the sympathy of every member of the Kentucky press.

Ex-President Taft says there can be no permanent peace which does not provide for the utter elimination of the Kaiser, and he might have added without his entire annihilation. The Hapsburgs and Hohenzollerns must go along with the exploded fetish that kings rule by divine right. The fight is for democracy and against autocracy and it will not end until the people rule everywhere.

Arizona furnished something new in coroner verdicts. A mob hanged a man who had murdered a husband and criminally assaulted his wife and a jury found that it was a case of "justifiable homicide committed by persons unknown to the jury." Mob law is rarely justifiable, but there will be no controversy that in this case the proper verdict was returned.

The Follen Unitarian church of East Lexington, Mass., taking advantage of the new law permitting farm and garden work on Sunday in that State, has decided to omit its morning services on Sunday during May and June, in order that its members may devote more time to their gardens. The pastor, Rev. N. Mark, has enlisted in the naval reserve.

A call for women volunteers for work as conductors on street cars has been issued by City Traction Commissioner of Cleveland. The statement is made that the street railway company is 200 men short and that the war draft will take a hundred or so more, so women are depended on in the crisis.

H. L. Calhoun, dean of the College of the Bible, at Lexington, severely criticized the finding of the Board of Trustees of the institution in which it held there was no ground for the charge that various members of the faculty had been guilty of destructive criticism, averring that the report was in the nature of a "white-wash."

Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful.

I could not do anything, not even sleep at night. It kept me awake most of the night . . . I took different medicines, but nothing did me any good or relieved me until I took Cardui . . .

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped I was not able to straighten up again . . . I decided I would try Cardui . . . By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well." If you suffer from pains due to male complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health.

ALL PEAVINE 4092

FEE \$15

Now looks like the time to breed good horses. I am going to give the people a chance if they want it. I will stand the Champion Sire, All Peavine 4092 at \$15 to insure a live foal. I am not going to try and enumerate his produce that have won and sold for big prices, that is a well-known fact.

At same time and place will stand two good jacks; \$10 for grey jack; \$8 for young grey jack. Money due in all cases when colt is foaled, mare traded or bred to other stock.

The Espionage Bill was passed by the House with a modified censorship provision, after Administration leaders had lost an insistent fight for the retention of the original section aimed at the publication of news of value to the enemy. The Administration also suffered a defeat in the Senate, where the export embargo amendment was modified.

KIDD'S STORE

Death of Mrs. Clay Wilcher, wife of less than a year, was a shock to all last Monday. Mrs. Wilcher was Miss Emma Goode, a modest, cheery girl of most lovable qualities.

Squire Edd Grubbs has sold his stock of goods and good will to Tom Statum and joined Judge Link Wells, in his campaign of enlightenment as to their deserts to succeed Dave Taylor as sheriff. The incumbent whose efficiency wins comparison to Dave Taylor will deserve fame.

The gloom of early spring was temporarily cheered by a tide of emigration which included a liberal contingent of the undesirables who never work. The delusion that a degree of effort to earn a living had inspired the barnacles was short for "the cats came backs" and our last days are gloomiest. There are few places, otherwise blessed as we, where relatively such afflictions abound. And the lusty loafers, suggestive of sluggish saurians sunning on tropical sands, or mud turtles on logs, are slackers, fit only for powder fodder after vigorous employment at trench digging for soldiers; illuminating illustrations of necessity of conscription.

Farmers as usual are grouching, and never more excusably, far as the veterans of the guild can remember. Summer is at the door and there have not been two consecutive days of typical spring conditions. Never a year that so little plowing could be done first three months nor one when April so thoroughly played role of March in blow, bluster and general cussedness—expiring in sunshine and shower, followed by shivers in overcoats, when not beside hot stove or glowing grate.

The forests never so late leafing, pastures greening and grasses so backward. A conservative old granger declares that in fifty years he was never so late in beginning his gardening; fully a month later than average years and two months later than some. Nearly every day of April favored farm work and conditions have been ideal enabling thorough preparation for corn, though many have not planted. At this date, 10th of May, only slugs, ordinarily, have not plowed and replanted.

For a week temperature has been about and below frost point every night threatening fruits and tender vegetables but clouds, fogs and winds have averted immediate destruction. Agents are active taking leases here for oil and gas development. About twenty years ago an Ohio company leased lands here proposing two test wells. Barometric measurements indicated a depth of 1,800 to 2,200 feet to level of the Ohio field. Work was promptly begun on Chelf's Ridge. At 60 feet a stream demanded casing. Beyond that depth 1,900 feet were bored through dry rock when water rose 1,500 feet in the well. Presumably expenses of casing to enable completion to proposed depth of exploration disheartened and the field was abandoned. The test well

DON VARRICK

Almont Dare, 3228, is a rich red bay stallion; 16 hands high with good bone and fine style. Is extremely fast both under saddle and in harness. He is a full brother to Toxy Dare that won the championship for saddle bred brood mares at the Kentucky State Fair in 1914, defeating Edna May and others and to Nettleton that sold for \$3,600 and others at \$1,500. He is the best one of the lot. His colts have frequently defeated the colts of sires standing as high as \$75. Have sold his colts myself for \$500. Others claim offers of \$1,000. They also are the very best to use at home, being large, fine, game, durable and kind.

Will make the season at \$10 to insure live colts.

Bryan Breckinridge, my registered black jack, 16 hands with extremely large bone will stand for mares at \$10 for mare mules and \$8 for horse mule. Will also breed jennets any month in year at \$10 to insure colt. Has sold his colts for \$120 at weaning time. "I can drink coffee now without having heartburn," said J. H. Curtis, maker of the famous "Curtis Salve." Mr. Curtis lives at 205 Washington street, Georgetown, and is well known personally all over Kentucky. For thirteen years he taught school and for the past four years has been in the post office at Georgetown.

"I had trouble with my stomach for several years, and I never had anything help me so quickly as Taurale," says Mr. Curtis. "After meals I had a burning sensation in my stomach and sometimes a sour taste in my mouth. I bloated a good deal from gas, and had a soffered feeling."

"Once in a while I had a 'lizzy spell' I had tried different things, but nothing did me much good until I tried Taurale."

"Some of my friends have asked me about Taurale. I have told them I think it is a fine medicine. I shall not fail to recommend it for it has given me great relief. I can rest well nights and seldom have that tired feeling in the morning. I can eat or drink most anything now."

Taurale is sold exclusively in Stanford at The Penny Drug Store, E. R. Coleman, Proprietor.

Taurale can now be obtained in following nearby cities: Moreland, Abraham Minks; Hustonville, Adams Bros.; McKinney, True & Co.; Ellensburg, Joe McWilliams; Middleburg, W. C. Mr. Charles Snyder, of Louisville, visited our city Saturday and Sunday.

The young folks will enjoy a dance at Crab Orchard Springs Saturday evening, the 12th.

Our Postmaster Gooch is visiting his brother in Indiana and enjoying his vacation very much.

Dr. J. G. Carpenter was here Sunday to see Mrs. Manuel and thinks she will be up again.

Mr. Edward Edmiston, who is in business in Cincinnati, was home Sunday to visit his parents and brother.

The Christian Sunday School had 105 present last Sunday and you ought to have seen Supt. Skiles smile.

Mr. Andrew Dillon has rented of Mrs. Hild Magee the room next to his store, which he will fit up for an ice cream parlor.

Mrs. Emma Farris went to Mrs. Robert White's this week, and will probably remain a couple of weeks in the country.

Rev. Pervis, of Christian church, preached fine sermons Sunday morning and evening to a large audience that were interested in his subject.

Members of the Christian church, please send in your cakes, cream or money for the strawberry and ice cream supper to be served at the graded school building on the evening of Monday 14th. Everybody invited.

Mrs. Culton brought Mrs. Margaret Sparrow and son from Louisville last week, who will remain with her some weeks. Mrs. Sparrow is not well. They have moved into Mrs. Culton's house which is ready for occupancy.

Sunday is "Mother's Day" in all the churches. Go to church somewhere and wear a flower in remembrance of her who taught you that it was good to be in the house of the Lord. She will be with you though perhaps not seen. Keep her alive in your life.

On Monday evening the 14th at the Graded School, Miss Esther Burch, of Stanford, will have her closing exercises in expression and it is free to all, and everyone invited to attend. Miss Burch certainly has done some splendid work in her line here and we only wonder more have not taken advantage of her instructions than have. We have lots of talent here that needs to be cultivated, and with such an instructor as Miss Burch much could be accomplished with the young folks.
